The 19th energy meeting of pandemic in footer climate conducted through this video conferencing. As you are well aware, in view of the massive outbreak of global pandemic of COVID-19, social distancing is a norm to be followed and hence the government of India that has missed your corporate affairs as allowed the companies to conduct their energy meeting through video conferencing. With the response of 19 years of raise with a new and innovative concept in the history of telecomification, the company has achieved its grand success by wide range of operations in telecom technology and FinTech in the domestic and international markets. The year 2019, 2020 brought us unprecedented learnings with the mobile coronavirus outbreak, compelling the corporate community to rethink strategies to try and overcome the deep impact the pandemic has had on various businesses. As leaders of the industry, in this unprecedented time, we are looking at constructive ways and means of dealing with the situation. Taking care of all our employees, stakeholders and continuously focusing on the ever changing customers. We look forward to another successful year ahead with several new projects planned.
